

Lehi Locals and Personals

F. A. O'Brien of Salt Lake City spent Tuesday visiting Lehi relatives.

A NEW BUGGY FOR SALE; easy terms. A. B. Anderson, Lehi. 18-21

R. A. Wilkins of Eureka spent several days this week visiting with his sister, Mrs. W. E. Evans.

Boys' waist band overalls at Chipman's for 25c. Heavy quality. 18-11

Mrs. Robert Ball entertained at a Kensington Tuesday afternoon. Refreshments were served.

Mrs. Frank Yearance returned on Saturday from a week's visit with friends in Salt Lake.

Mr. Smelle came down from Idaho on Tuesday for a few days' visit with his family.

A few seed oats left and plenty of grass and garden seeds. Chipman's.

Melvin Johnson returned this week from Wyoming, where he has been for the past two weeks.

A son and heir was born to Mr. and Mrs. Wallace Peterson on Saturday. Mother and baby doing well.

Read Chipman's big ad. In this paper. Front page. It means much to you.

Mr. and Mrs. Melvin Beck went to Draper on Monday to attend the funeral of Brigham Garfield, Mrs. Beck's brother.

A. J. Pendleton of Salt Lake City spent most of the week on his farm over Jordan, planting out an orchard of English walnuts.

Wall paper, linoleum and carpets can be bought less at Chipman's than elsewhere. You make us prove it. We know of what we speak. 18-11

Edward Harrison and Charles Beck have been in Salt Lake county this week and report having done a big business in selling clothes racks.

Professor Hennion and his high school agricultural class attended the stock show at American Fork on Tuesday.

No use spending \$10 to \$15 for graduating dress when you can buy them at Chipman's for \$2.98. 18-11

B. W. Brown and N. A. Brown spent several days this week in Salt Lake visiting with their brothers, Clinton and L. W.

SMALL PIGS FOR SALE—A. B. Anderson, Lehi. 18-21

R. J. Stice has been placed in charge of the Salt Lake Route station at Tooele, and will move his family there within the next few days.

L. W. Brown, who has been making his home on the coast for the past seven years, dropped into town for several days the past week to visit with his brothers, B. W. and Newall.

Boys' graduating suits for eighth grade and high school at Chipman's. We clothe you right and give you correct styles. 18-11

Somebody's boys are in danger of being blown into eternity. Last Saturday some boys entered the cellar on Richard Norman's farm in the field and stole a lot of fuse, giant caps and powder.

Mrs. Sarah Kirkham left for Denver this week, where she will visit with her daughter, Maude Kirkham, who is doing missionary work. Miss Kirkham will be released to return home about the 20th inst.

Tuesday evening some boys broke into Comer & Hertel's Ice Cream Factory. They are the same lads who have been doing similar mischief in that locality lately, and it is not probable that some of them will be sent to the Reform School at Ogden.

Four trains to Chipman's from Lehi every day. We save your fare and then some. Give us a visit. Do it now. 18-11

Mrs. Andrew Field and Mrs. George Schow engineered a most successful house party Saturday evening in honor of Mrs. R. J. Whipple, who will, with her husband, make their home in American Fork. There was a large attendance of neighbors and friends, who spent the evening in music, games and refreshments.

A YOUNG FRESH MILCH COW FOR SALE—A. B. Anderson, Lehi. 18-21

TO NON-ADVERTISERS.—Don't you know that you are the fellow that's losing money by not advertising in this paper. Go over each page and read the live merchants and business firms' ads. Do you imagine they are doing all this advertising for charity's sake? No! They are getting results, and so will you if you will attend to your advertising like you would any other business proposition. We tell you again that all the people read this paper—the ads as well as the news. Ask our advertisers or our subscribers.

Dr. and Mrs. Fred Worlton were Salt Lake visitors Wednesday.

Men's work shirts for 35c at Chipman's. 18-11

T. J. Powell is going round on crutches; the result of a horse falling on him.

Farmers on the bench lands commenced irrigating their alfalfa this week. They have more water than they can use.

S. I. Goodwin has greatly improved his place by removing the old board fences, revealing a beautiful evergreen hedge, which will take the place of a fence.

The Smuin Orchestra went to Layton to play for an Arbor Day dance Wednesday night. Tonight they go to Ophir. Next week they will run an excursion from Provo on the D. & R. G.

Chipman's Bargain Basement has purchased about a carload of samples in ladies' muslin and knit underwear, shoes, slippers, dresses, men's work shirts and graduating dresses. A saving to you of 25 to 33-1-3 per cent. All new and clean goods. 18-11

Judge S. R. Thurman of Salt Lake City was a Lehi visitor Wednesday, gathering data for the water case being tried in Provo, wherein Thomas Chipman is suing Lehi, American Fork and Pleasant Grove for not taking care of their waste water from American Fork canyon. Lehi is represented by S. R. Thurman, American Fork by Judge Whitecotton and Pleasant Grove by Attorney Harvey Cluff.

Split Log Drag

D. Ward King of Missouri Shows Farmers and Road Experts Use of Simple Device.

"The roads of Utah are fifteen years behind the times," said D. Ward King, the Man from Missouri, who addressed a big gathering of farmers and road supervisors at Provo on Thursday.

Mr. King is the inventor of the split-log drag for building and maintaining earth roads. He has revolutionized earth roads in America. The value of his methods to America runs up into millions. So important is his mission to Utah and this community that we give the following extracts from a report of his meeting:

Smoothness and quick drying are two of the things that make for the best conditions in a road, said Mr. King, and to promote these two attributes it is necessary to so build the road that water will not stand. The action of this split log drag is to build up the middle or "crown" of the road and allow water to go off at the sides. The amount of moisture that falls on the highway does not harm it, says Mr. King, only the amount that remains.

Drag Has Become Famous.

The drag that has caused so much comment and has made Mr. King famous all over the United States is merely the two halves of a split log fastened together. This contrivance is dragged by a team with each timber lying obliquely across the line of travel at an angle of 45 degrees. The action of the device is to scrape up dirt at the edge of the road and draw it towards the center, piling it up on the crown of the road and filling ruts made by wheels or the hoofs of horses. The dragging is to be done after every rain when the earth is moist, but not sticky. After being piled in the middle of the road the dirt is packed down by travel and dried by the sun and wind, the final result being that a hard layer of waterproof earth is laid on the road after every rain. Five or six draggings will pro-

duce wonderful improvement in the worst road in existence, says Mr. King.

Mudholes, said the speaker, simply cannot exist on a dragged road, for they soon are filled with surface dirt. Dirt from a road surface is capable of being pounded, rolled and dried into a waterproof layer, while if dirt is taken from a field and subjected to the same process it will not give the same results until after it has lain on the road for some time and has been subjected to the action of wheels and hoofs while wet. Hence in filling a mudhole on a road, dirt should be scraped from the road itself and put into the hole. If field dirt is put into the hole it will absorb most of the water and retain it in the hollow.

Mr. King took occasion to good naturedly criticize dirt roads he had seen in Utah. They would benefit greatly by being dragged, he asserted, and many of them fairly cry out for treatment of this kind.

After offering to send printed instructions for building a split log drag to all who gave their names, Mr. King gave advice as to the use of the implement.

"Don't try to improve on it," he cautioned. "The only failures with the drag that I have run across were made by persons who had 'improved' on the original. The device is the simplest possible, and is therefore the best possible."

Demonstration Is Made.

Demonstration of the drag was made on one of the Provo streets by the inventor. Although the ground was dry and not in good shape for dragging, Mr. King succeeded in smoothing it perfectly and piling the dirt on the crown. Several of the spectators applied for bulletins describing the construction of the device.

Mr. King said that a drag constructed in Utah was the third that had been correctly built by a stranger. He said that with two exceptions all others had been "improved"

We Expect To Show You The Best Values

in all lines of Merchandise that can be had at any store in this end of the County. We have been serving the people for many years and hope to do so for many years to come. We will give you as good value for your money as can be had at any place in or out of town. Build up your friends at home and you build up yourselves. That is the system to study. It will pay you. Let the slogan be—"Lehi, first, last and all the time." We want to serve you. Ask Len in Hardware Department for Fish and Game License.

What's What in Sugar

You use sugar every day. So it behooves you to be particular in its selection.

Chemical, fruit preserving and boiling tests fail to reveal a single imperfection.

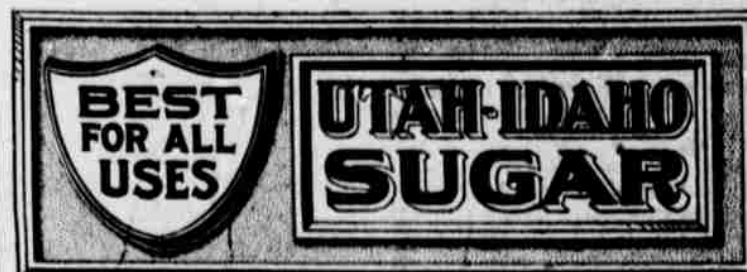

Don't judge it by its appearance, but by its inner quality—its sweetening power, its preserving strength, its high state of purity.

Experts who have analyzed it, claim it to be the equal of any sugar produced in the world.

Buy a sack today and try it.

Select the sugar you use on this basis and Utah-Idaho Sugar will be your choice.

We believe it will satisfy you as no other sugar ever has. Its cost is no greater than for ordinary sugar.

upon by their makers and rendered useless before his demonstration.

There were quite a number of delegates from this end of the county, including nearly all the deputy road supervisors and many city officials. It is probable that many of the expensive devices will be made and used throughout the county and enthusiasts predict that Mr. King's visit will result in great improvement to the county roads and city streets.

NOTICE.
Notice is hereby given that the annual stockholders' meeting of the North Scranton Mining company will be held at the Merrihew building, Lehi, Utah, Monday, May 4, 1914, at 8 p. m., for the election of a board of directors, and for the transaction of any other business that may come before the meeting.

F. R. HEIDENREICH,
Secretary.

Stake Priesthood Meeting

The Stake Priesthood meeting Sunday was well attended, the day being ideal. President A. J. Evans presided.

In the union services Miss Clara Bone of Lehi, who has been doing missionary service in the central states; Miss Sylvia Bushman of Lehi, who has also been laboring in the same mission, and Miss Rosa Durrant, who has been laboring in the southern states, gave most interesting reports of their missionary labors.

Miss Elva Chipman rendered a solo and a mixed quartette from Alpine gave a song that had been composed by Mrs. Celestia Nash Rowland, Mrs. Rowland taking the soprano part.

In the priesthood meeting Albert Storrs of American Fork, who helped to open up the French mission, gave an interesting report of his work. Clyde Dorton, who has just returned from a two and one-half years' mission to Germany, briefly reported his work. The balance of the time was taken up by J. W. McKnight of Nephi.

The Sunday school union meeting was addressed by Elder McKnight, who gave a talk on "Freedom" from the use of intoxicating liquors and tobacco. Mr. McKnight is a juvenile judge of Juab county.

The young men's division took up Boy Scout work and the coming M. I. A. contests. The date of the contests will be May 2, and the place will be in the Pleasant Grove Tabernacle.

The young ladies' division took up club work and buttons. The button campaign is progressing satisfactorily. Some of the wards have disposed of their allotment and some of the members reported having sold as high as forty buttons.

ABRAHAM ANDERSON GOES TO JORDAN

Abraham Anderson has accepted a position with the Jordan school district and will supervise the teaching of music in all the schools in Salt Lake county south of Sandy. He will locate his home in the vicinity of Midvale or Sandy by the time school opens this fall.

Mr. Anderson is a graduate from the music department of the B. Y. U. and spent the past summer in the Chicago Conservatory of Music. He is recognized as one of the most efficient music teachers in Utah. Lehi can ill afford to lose him, but a big consolidated district can make the highest bid.

Mr. Anderson's successor has not yet been chosen.

HOME ECONOMICS PROGRAM.

The Home Economics Club will meet in the grammar school building Wednesday evening, April 22, at 7:30 p. m. The following program will be rendered:

Spring housecleaning—Mrs. Elmer Peterson.
Radio solo—Edith Ross.
Reading from "A Montessori Mother"—Mrs. G. T. Stookey.

All school teachers, primary and kindergarten teachers, and mothers of young children especially invited.

WEDDING BELLS.

Miss Nena Christofferson and Roy Harris were married in the Salt Lake Temple, Wednesday, and were given a supper and reception at the home of Alex. Christofferson, Thursday evening. The young people will make their home at Garfield.

In last week's weddings we got some of the names mixed. It should have been Arnold Taylor and Miss Selinda Bringham, two of Lehi's most popular young people. Mr. and Mrs. Taylor will also make their home at Garfield.

Residence opposite new Opera House on State St. Lehi, Utah.

The Tail of Two Cities

Provo, Utah, is a thriving, prosperous city

Over six thousand people live and work and play there

They have their friends; their homes, their families, their stores and their churches.

That's there city

There's another city—just as big, just as important, and just as thriving

That's the Telephone city

Over six thousand men and women are working in the mountain region today to handle your telephone calls.

If all the employees of your telephone company could live in one place they would make a bigger city than Provo

They can't be spared, though, even to build a city

For they are busy every day of the year in 100 cities and towns in seven states making your telephone service

The Mountain States Telephone & Telegraph Co.
